

WANT SUBWAY BUILT
BY A POPULAR LOANEast Side Citizens' Improve-
ment Association Suggests
Plan for Getting Funds

The East Side Citizens' Improvement Association at a meeting held last night at No. 135 East Fifty-first street, discussed the question of rapid transit and adopted the following resolutions:

Resolved, That in view of there being no competition for the building of new subways, the association take upon itself, together with an advisory board appointed by the Mayor, to look into the matter of having bankers or others to build these roads by popular subscription, or by the people in a form of a popular loan.

Wongie Bug.....105
Marino.....105
Red Ruby.....105
Sundridge Heien.....105
Apprentice allowance claimed.

WHEAT PRICES LISTED
ON CROP DAMAGE NEWS.

Wheat opened fractionally in the market to-day, there being a lack of response by traders. Later there was a slight improvement in prices on complaints of crop damage from Kansas.

Corn was quiet:
New York's opening prices were:
Wheat—May, 50-53;
—May, 55-58 to 55-54 to 55-53; July, 54-54 to 54-53, Corn—May, 41-42 to 41-38; July, 41-42 to 41-38.

New York's closing prices were:
Wheat—May, 50-52 offered; July, 50-54 offered; September, 57 bid. Corn—February, 51 offered; May, 50-52 bid; July, 50-54 bid; September, 50-54 bid. Wheat—May, 55-58; July, 52-53; September, 52-53 to 52-54. Corn—February, 41-42; May, 41-42 to 41-38; July, 41-42; September, 41-34.

LONDON STOCKS DULL,
BUT HAD GOOD TONE.

LONDON, Feb. 7.—Money was in strong demand in the market to-day. Discounts were tolerably firm. Trading on the Stock Exchange was quietly cheerful. Consols hardened.

Americans opened irregular and grew firmer to over parity on fair support. Illinois Central was the feature. Union Pacific and Atchafalpa, Tokyo and Santa Fe were wanted. After some irregularity prices closed generally easier.

Japanese Imperial 6s of 1904 were quoted at 103-15.

A Gobbler That Didn't Want to Be Gobbled.

Does the Turkey hate the farmer? No, he likes him as a master. But in looking over the World's Farm, Ranches, Acres, etc., he discovered that the farmer is not so much to be feared. The Turkey's pride is injured, for he dislikes very much to be gobbled.

Bargained Off!

WALL STREET.

WEDNESDAY, Feb. 7.

Although the prevailing sentiment in Wall street is that there will be no coal strike, very close watch of the situation is being kept by all the active interests in the stock market. To a certain extent speculative operations have halted in consequence of the strike talk. Some dealing of uncertainty must necessarily exist until the mine owners and the coal miners agree upon a new contract to take the place of the one that expires on April 1. Good results are expected from the conference between the anthracite mine operators and representatives of the Mine Workers' Union, to be held in this city on the 15th inst. Private advice received by Wall street brokers from the anthracite region indicate that the miners there do not want to strike. They have not forgotten the sufferings imposed upon their families by the long strike of 1902. That strike cost the miners \$30,000,000 in wages besides causing a direct loss of about \$15,000,000 to individual business interests in the mining region. The owners of the mines estimated their aggregate loss at about \$20,000,000. The more intelligent miners, it is said, know that the mine operators are now in much better condition to resist a strike than they were in 1902. At that time there was no surplus of coal in store. Now the miners have reserve supply of more than a million tons. Some of the coal producers feel so independent that they have openly declared that they do not care whether there was a strike or not. Reading stock, which gave way a little at the beginning of the strike scare, is now held very firmly. The pool appears to be adding to its holdings.

A feature of to-day's market was the continued activity of Distillers' Securities shares and a sharp advance in the price. There is a strong pool in the stock and the favored determination of the pool managers is to carry the price considerably above 60. The earnings of this company and the trade outlook are said to be sufficiently satisfactory to warrant hopes of an increased dividend.

Definite information has reached Wall Street of the formation in Holland of a strong syndicate for the purpose of acquiring and holding American industrial shares. These holdings are not to be restricted, but at the outset they will embrace U. S. Steel, American Car Foundry, American Woolen, National Lead, U. S. Rubber, Central Leather, Republic Iron and Steel, Pressed Steel and U. S. Cast-Iron Pipe. Recent purchases of some of the foregoing stocks were for account of this Dutch syndicate.

It is becoming a common daily occurrence for Great Northern to make a new high record. This feat was repeated this forenoon, when the favorite Hill stock advanced above 32. The constant rise in the quotation for Great Northern is associated with the alleged lease of the Minnesota lands to the United States Steel Corporation. So much has been said about the prospective "rights" that Great Northern stockholders will enjoy from the royalty income from those lands that even the very high price of this stock fails to tempt many holders to sell. Union Pacific officers deny the current rumors that a quantity of the Great Northern stock held by that company has lately come upon the market.

Mexican Central shares were bought on an unusually extensive scale during the day. The most logical explanation of this movement was found in the optimistic reports of industrial prosperity in Mexico. The physical condition of the Mexican Central Railroad has been greatly improved during the past two years, and its earnings are increasing by leaps and bounds. The traffic handled by this road during the last six months is said to have greatly exceeded the expectations of the company's officials.

There was much discussion of Union Pacific dividend prospects on the floor on the Exchange to-day. The directors meet to-morrow and are expected to make a semi-annual dividend declaration. Active in bidding Union Pacific stock feel confident that a 3 per cent. annual dividend, announced there by placing the stock on a 6 per cent. basis. Sometime ago there was much talk of a dividend of 10 per cent. to be paid out of the Union Pacific surplus treasury assets. Of late, however, persons in the management have discouraged this idea. The cutting of a melon, it is asserted, will occur later on.

spirited movement in the minor copper stocks gave the curb brokers enough to do to keep them warm most of the time. United Copper was uncommonly active, selling in large quantities at 75. Speculators in this stock declare that the control is now in the hands of the Amalgamated management and that it is the purpose of H. H. Rogers and the Guarantors to buy all of the United Copper stock that they can get. Boston consolidated and the Greene Copper also displayed unusual activity on the curb market.

PNEUMONIA CAUSED MORE
DEATHS THAN CONSUMPTION.

State Record for 1905 Is 14,157 Victims of Pneumonia Against 9,000 in 1903—An Alarming Increase—How to Guard Against It.

Eminent Doctors and Scientists Agree That the Dread Scourge Can Be Best Prevented and Cured by the Great Tonic-Stimulant, Body Builder and Invigorator—Duffy's Pure Malt Whiskey.

The State Department of Health reports in its annual bulletin of vital statistics, which has just been issued, 137,059 deaths in this State in 1905, a death rate of 17.4 per thousand population.

The most alarming and terrifying fact disclosed by the statistics is the unprecedented increase in the number of deaths from pneumonia.

The medical fraternity does not disguise its dismay and amazement at this disclosure, which shows an increase of over five thousand deaths from pneumonia from 1903 to 1905. Every effort is now being made by doctors and scientists everywhere to circumvent and check the dread scourge which has the entire country in its deadly grasp.

The statistics just published show that pneumonia during 1905 was the chief cause of death, causing 14,157 against 13,531 in 1904 and 9,000 in 1903, an increase of over 5,000 deaths in only two years. Pneumonia caused 10.4 per cent of the deaths and consumption 10 per cent.

The seriousness of the rapid growth in the number of deaths from pneumonia has been known for some time to Dr. P. F. O'Hanlon, Coroner's Physician of New York, who only a few days ago issued the following warning. Dr. O'Hanlon said: "Preventive medicine is more efficacious than medicine given to heal after the critical stage has been reached. The human body has within itself the means of throwing off hostile bacilli as long as its vitality has not diminished below a certain point. The bacillus of infectious pneumonia, the pneumo-coccus, floats all about us in the atmosphere, and is especially abundant in theatres, churches, railroad stations, street cars, especially subway trains, and wherever human beings congregate. The secret of resisting this deadly bacillus is simple: It is to keep the general health good, the body strong and the vitality unimpaired."

It is this wonderful power of resistance and sustained vitality which enables the body to throw off and conquer disease that has made Duffy's Pure Malt Whiskey the most valuable and powerful agency in combating disease and the forces of decay known to medical science.

For more than fifty years Duffy's Pure Malt Whiskey has been prescribed by doctors and used in over two thousand leading hospitals as the greatest tonic stimulant and health-builder known to medical science. It is endorsed by the clergy and professional nurses and recommended by all schools of medicine as the best cure for coughs, colds, consumption, grip, bronchitis and pneumonia. It stimulates and enriches the blood, aids digestion, builds up the nerve tissues, tones the old young and the young strong. Duffy's Pure Malt Whiskey contains no fusel oil and is the only whiskey that has been recognized by the Government as a medicine. This is a guarantee. For sale by all reliable druggists and grocers, or direct, in sealed bottles only, never in bulk, \$1 a bottle. Make sure the seal over the cork is unbroken. Doctor's advice and medical booklet free. Duffy Malt Whiskey Co., Rochester, N. Y.

THE CLOSING QUOTATIONS

An original plan
No other store in New York
sells pianos like we do, and that's why no other store sells so many NEW pianos. Our plan is called "all new instruments to include those made by Chickering Bros. Packard & Schumann H. & S. G. Lindeman and the finest piano player and player piano in the world The Cecilian player and The Cecilian piano each enabling anybody to play. Here's the original plan. We sell hundreds of used pianos at one-third to one-half less than they are now worth. We agree to take them back at FULL AMOUNT PAID to date of return at any time within one year. ALL money paid to apply as first payment on your choice of our new pianos.

Simpson Crawford Co.

THE PINK EDITION OF THE EVENING WORLD
CONTAINS ALL SPORTING NEWS OF THE DAY

DELIGHTFUL AND CONVENIENT—OUR EIGHTH FLOOR RESTAURANT.
Simpson Crawford Co.
SIXTH AVE. 19th TO 20th STREETSHere's a new Spring suit
at 21.50 that will
interest you.

If you were to gauge prices by style, symmetry and grace, we'd name a price above \$30 for this suit. But we go the other way round. The cost of production is what we gauge our selling prices by, and we try to approach just as close as possible in style and beauty to the costliest models.

Women's fine serge suits, 21.50.

These suits are made of a fine grade of serge—hard twisted finish—come in navy and black—an Eton model with girdle and lined with soft white satin—collar & cuffs of white cloth with combination of gilt and black silk braid—can fit you as well in these suits as though you went to a modiste and paid double the money..... 21.50

Broadcloth suits, 24.75—Lightweight broadcloth suits in high colors or plain black—also mannish weaves in various shades—smart, nobby hip jacket—well tailored—lined with taffeta—beautiful new trimmed skirts.

Panama skirts at 9.75.

Very fine quality—two new models—circular flare effect—trimmed in narrow bias bands to form the design.

Chiffon broadcloth skirts, 15.00.

Separate skirts of very fine Panama—entirely new model—full circular model—self trimmed.

1906 styles in white embroidered robes.

AUTHORITATIVE exhibition of the new styles in white embroidered robes for 1906. A display of style elegance surpassing any similar display ever seen in New York. The world of fashion has never witnessed such a craze for lingerie as this season. Organdies, batistes, fine lawns, elaborately trimmed with lace and embroideries, enjoy royal favor in Fashion's court.

The most striking feature of the embroidered robes is the new Japanese embroidery, resembling the finest hand work, though done by machine.

Beneath the robes a white petticoat or slip of pale pink, Alice blue or similar delicate colorings gives a charming effect to the tout ensemble that you'd only look for in robes that cost several times the price.

The 1906 robes come with separate skirt and waist patterns—a few hours' needlework turn them into a handsome gown that would do credit to the most skilled modiste.

\$5.00 embroidered robes—worth \$7 and \$8
\$6.75 embroidered robes—worth \$10 to \$12
\$20.00 embroidered robes—worth \$30 to \$35
\$10 embroidered robes—worth \$15 and \$17.50
\$14 embroidered robes—worth \$20 and \$25
\$25 embroidered robes—worth \$40 and \$45

Introductory sale Moneybak silks.

THE trade mark "Moneybak" is representative of the superior quality of these silks—a grade that can be absolutely depended upon without qualification of any kind for permanency of dye and durability in wear.

These are the silks, and so much stronger and better are they than the average silks that the maker agrees to return the money paid whenever these silks show unsatisfactory wear within a period of six months. The dye used is a pure vegetable product that possesses a deep, lasting lustre.

We control the sale of these silks on 6th avenue, and as an introductory offer to make our customers acquainted with these splendid silks we quote the following prices:

34-inch Moneybak taffeta, 1.50; 26-inch Moneybak taffeta, 1.25;

20-inch Moneybak taffeta, 1.00; 24-inch peau de soie, 1.50;

20-inch peau de soie, 1.25; 20-inch peau de cygne, 1.25.

Annual sale of men's
trousers.

LAST November we secured all the short lengths of suiting materials from one of the foremost clothing manufacturers in America—bought them at a price that wouldn't half pay for the weaving.

Had these short lengths made up into trousers—some 2,500 pairs. Regular price for trousers made up in the same stylish manner and splendid workmanship would sell at \$5 to \$7.50, but we are aiming to give our customers the greatest trousers bargain ever seen in New York.

Peg top for stylish young man (sizes 29 to 40 waist.)

Medium cut for the conservative man (sizes 31 to 42 waist.)

Stout cut for the corpulent man (sizes 36 to 46 waist.)

Extra sizes for the very large man (sizes 42 to 54 waist.)

Sizes from 29 to 54 inch waist—any inseam. Here are the fabrics. Neat striped worsteds in silk mixed effects—also fancies, nobby Scotch effects in every desirable pattern—cassimeres, tweeds. Every color, Every style. All made according to the latest styles.

Irish linen handkerchief seconds
from three Belfast makers.

ONCE every year three Belfast makers turn over to us all their handkerchief seconds—a quantity that runs into thousands, and includes almost every style and quality manufactured.

For all practical purposes, they're as good as first—defects being so slight as not to be noticeable, except on close examination. The saving is half.

Irish linen initial handkerchiefs, 12½c, and 15c.

For men and women—all are hand-worked. The regular prices are 35c. and 50c. Women's handkerchiefs at 12½c.; Men's handkerchiefs at 15c.
